CONTENTS
for Volume 210

No. 1: February 2006

ECOLOGY AND EVOLUTION

Srinivasan, Vijayasarathy, and Harold J. Morowitz
Ancient genes in contemporary persistent microbial pathogens 1
Lasker, Howard R.
High fertilization success in a surface-brooding caribbean gorgonian 10

SYSTEMATICS

Remsen, David P., Catherine Norton, and David J. Patterson
Taxonomic informatics tools for the electronic *Nomenclator zoologicus* 18
Schulze, Anja
Phylogeny and genetic diversity of palolo worms (*Palola*, Eunicidae) from the tropical North Pacific and the Caribbean 25

PHYSIOLOGY AND BIOMECHANICS

Terwilliger, Nora B., and Margaret C. Ryan
Functional and phylogenetic analyses of phenoloxidases from brachyuran (*Cancer magister*) and branchiopod (*Artemia franciscana, Triops longicaudatus*) crustaceans 38

SYMBIOSIS AND PARASITOLOGY

Rogers-Lowery, Constance L., and Ronald V. Dimock, Jr.
Encapsulation of attached ectoparasitic glochidia larvae of freshwater mussels by epithelial tissue on fins of naïve and resistant host fish 51

DEVELOPMENT AND REPRODUCTION

Mensinger, A. F., and M. E. Tubbs
Effects of temperature and diet on the growth rate of year 0 oyster toadfish, *Opsanus tau* 64

No. 2: April 2006

RESEARCH NOTE

Stevenson, Bradley S., and John B. Waterbury
Isolation and identification of an epibiotic bacterium associated with heterocystous *Anabaena* cells 73
Roberts, A. M.
Mechanisms of gravitaxis in *Chlamydomonas* 78

NEUROBIOLOGY AND BEHAVIOR

Wyeth, Russell C., and A. O. Dennis Willows
Field behavior of the nudibranch mollusc *Tritonia diomedea* 81
Wyeth, Russell C., Owen M. Woodward, and A. O. Dennis Willows
Orientation and navigation relative to water flow, prey, conspecifics, and predators by the nudibranch mollusc *Tritonia diomedea* 97

Gifondorwa, David J., and Esther M. Leise
Programmed cell death in the apical ganglion during larval metamorphosis of the marine mollusc *Ilyanassa obsoleta* 109

DEVELOPMENT AND REPRODUCTION

Amador-Cano, G., E. Carpizo-Ituarte, and D. Cristino-Jorge
Role of protein kinase C, G-protein coupled receptors, and calcium flux during metamorphosis of the sea urchin *Strongylocentrotus purpuratus* 121

PHYSIOLOGY AND BIOMECHANICS

Lovett, D. L., T. Colella, A. C. Cannon, D. H. Lee, A. Evangelisto, E. M. Muller, and D. W. Towle
Effect of salinity on osmoregulatory patch epithelia in gills of the blue crab *Callinectes sapidus* 132

ECOLOGY AND EVOLUTION

Johnson, Shannon B., Curtis R. Young, William J. Jones, Anders Warén, and Robert C. Vrijenhoek
Migration, isolation, and speciation of hydrothermal vent limpets (Gastropoda; Lepetodrilidae) across the Blanco Transform Fault 140

SYSTEMATICS

Hart, Michael W., Carson C. Keever, Alan J. Dartnall, and Maria Byrne
Morphological and genetic variation indicate cryptic species within Lamarck's little sea star, *Parvulastra* (=*Patiriella*) *exigua* 158

No. 3: June 2006

Robert K. Josephson
Theodore Holmes Bullock (1915-2005) 169

MARINE INVERTEBRATE MODELS OF LEARNING AND MEMORY

McPhie, Donna L., and Mark W. Miller
Biological Bulletin Virtual symposium: Marine Invertebrate Models of Learning and Memory 171
Hawkins, Robert D., Eric R. Kandel, and Craig H. Bailey
Molecular mechanisms of memory storage in *Aplysia* 174
Adamo, Shelley A., Kelly Ehgoetz, Cheryl Sangster, and Ivy Whitehorne
Signaling to the enemy? Body pattern expression and its response to external cues during hunting in the cuttlefish *Sepia officinalis* (Cephalopoda) 192
Kuzirian, A. M., H. T. Epstein, C. J. Gagliardi, T. J. Nelson, M. Sakakibara, C. Taylor, A. B. Scioletti, and D. L. Alkon
Bryostatin enhancement of memory in *Hermissenda* ... 201
Díaz-Ríos, Manuel, and Mark W. Miller
Target-specific regulation of synaptic efficacy in the feeding central pattern generator of *Aplysia:* potential substrates for behavioral plasticity? 215
Frost, William N., Cindy L. Brandon, and Carin Van Zyl
Long-term habituation in the marine mollusc *Tritonia diomedea* 230
Guan, Xin, and Gregory A. Clark
Essential role of somatic and synaptic protein synthesis and axonal transport in long-term synapse-specific facilitation at distal sensorimotor connections in *Aplysia* 238
Ha, Thomas J., Andrea B. Kohn, Yelena V. Bobkova, and Leonid L. Moroz
Molecular characterization of NMDA-like receptors in *Aplysia* and *Lymnaea:* relevance to memory mechanisms 255
Glanzman, David L.
The cellular mechanisms of learning in *Aplysia:* of blind men and elephants 271
Romano, Arturo, Fernando Locatelli, Ramiro Freudenthal, Emiliano Merlo, Mariana Feld, Pablo Ariel, Dario Lemos, Noel Federman, and Maria Sol Fustiñana
Lessons from a crab: molecular mechanisms in different memory phases of *Chasmagnathus* 280
Crow, Terry, and Lian-Ming Tian
Pavlovian conditioning in *Hermissenda:* a circuit analysis 289
Sakakibara, Manabu
Comparative study of visuo-vestibular conditioning in *Lymnaea stagnalis* 298
Hochner, Binyamin, Tal Shomrat, and Graziano Fiorito
The octopus: a model for a comparative analysis of the evolution of learning and memory mechanisms 308
Grant, Philip, Yali Zheng, and Harish C. Pant
Squid (*Loligo pealei*) giant fiber system: a model for studying neurodegeneration and dementia? 318
Bearer, E. L.
Dart symposium on learning and memory 334
